INTRODUCTION

Cloud Infosystem (BD) Ltd. is an Information Technology Services Company Based in Sahera Tropical Center, 9th Floor (Suite: 1003), 218, Elephant Road (Bata Signal), Dhaka-1205, which provides complete IT solution and services to enable it's clients to gain the highest strategic, Financial, Operational, and Organizational benefits with experienced IT consultants who can offer valuable business solutions.

We always try to create great value and productivity gains for clients by providing quality solutions to various business functions. We bring good experience in information technology, customer service, and global operations by continually combining our strategic thinking with the best in Technology, People, and Processes.

With a perfect blend of young and experienced IT professionals, the team has the dual-edged advantage of being both dynamic and stable. Both these advantages assure that the organization will be dynamic enough to adapt it self to the fast-changing world of Information Technology and is always in a position to provide cutting-edge solutions.

OUR MISSION

Our mission is to fully understand our customer's ICT needs and provide them with relevant, affordable, and fully integrated ICT solutions so that their ICT infrastructures work effectively and cost-efficiently while remaining robust and scalable to meet business expansion.

OUR VISION

To be one of Bangladesh's new generation ICT players known for it's quality of service, innovative and customized solutions, technical expertise, rapid and effective response, latest technology and premium customer care. We look forward to become the preferred ICT business partner by providing our customers with the right solutions and tools to ensure that their ICT infrastructure can always meet their business needs.

OUR VALUES

Cloud Infosystem (BD) Ltd. is committed to helping customers achieve their ICT objectives in the timeliest, most cost-effective, and highly efficient manner possible. Further, we will ensure that customers keep their infrastructure relevant in the face of constant technological and scientific innovation. Our values are expressed in a number of ways, including:

Helping customers consistently overcome technological complexities
